

WHO WE ARE

netlogx is a leading management consulting services firm that guides clients nationwide through operational challenges. Founded in 1998 and a certified woman-owned small business (WOSB), netlogx leverages Lean Six Sigma risk management principles and recognized project management (PMBOK®) disciplines to support our clients as they navigate change.

Client-focused and process-driven, we have successfully supported state and local governments, private enterprises, and non-profit organizations to operate more efficiently and effectively. With extensive experience in highly regulated environments, netlogx is known for delivering complicated projects on time and on budget while aligning with strategic goals and regulatory requirements.

CORE COMPETENCIES

Project and Program Management

We apply Project Management Body of Knowledge (PMBOK®) principles to bring a defined framework to manage projects ranging from large IT system replacements to smaller, more human-focused projects

Process Management

We capture, document, and analyze processes from the perspective of people, policy, and technology to identify potential cost savings and operational efficiencies

Information Management

We guide organizations to protect their investment in information through Data Management, System Analysis and Design, Data Governance, and Data Warehousing

Performance Management

Using our wealth of knowledge and expertise, we guide you through the planning, development, and delivery of a training and education program to optimize team performance

Organizational Change Management

netlogx' people-focused, results-oriented OCM plans mitigate the risks associated with large projects and significant change, while smoothing the transition and engaging team members

Security Management

Bringing our expertise to help clients protect the security of assets and information as we guide and support the development, implementation, and maintenance of an organization's security policies

THE netlogx ADVANTAGE

Project Rescue: Several states turned to netlogx to rescue IT transformation projects that were failing when managed by large enterprise-level project management vendors

Industry Knowledge: Our Subject Matter Experts provide guidance to state governments on topics such as Child Support and Medicaid

Reduced Start-Up Time: We bring tools, techniques, and approaches that we've developed over the past 25 years to every project

Focus on Client Success: We have a reputation for finishing projects on time and on budget while providing clients with the resources to be successful after our involvement ends

FEDERAL SMALL BUSINESS CERTIFICATIONS

■ Small Business Administration (SBA)

■ netlogx is a certified woman-owned small business (WOSB)

DIFFERENTIATORS

- More than 25 years of experience with state government agencies and private sector clients
- Current experience helping our clients earn federal certification—and enhanced funding—for Health and Human Services IT replacement projects, such as Child Support Enforcement and Medicare Management Information Systems
- Current experience assisting our client with securing approval for more than \$300M in Federal funding to enhance health and human services program serving 1.7M constituents, becoming the first state in the nation to secure funding at this level of multi-program and multi-agency collaboration
- We are “technology agnostic” and work impartially to find the best solution for our clients
- We are “Diverse by Design.” Our team of consultants with varied work and life experiences approach problems from multiple perspectives, enabling netlogx to find creative solutions for our clients

Your Trusted Guide through Change and Transformation

Change is either forced on you, or you can create it and make it work for you. Either way, you have to excel at managing change to survive and thrive.
