

WHO WE ARE

netlogx is a leading consulting services company that helps government entities, businesses, and nonprofits operate more effectively. Our services include project management, business process consulting, and strategic consulting. As a well-established woman-owned business, netlogx works as a trusted partner, known for delivering complex projects on time and on budget, while aligning with strategic goals and adhering to regulatory compliance.

We're where strategy and execution meet. Client-focused and process-driven, netlogx helps clients solve complex challenges, identify operational inefficiencies, and make their visions come to life.

CORE COMPETENCIES

Project Management

We apply Project Management Body of Knowledge (PMBOK®) principles to bring a defined framework to manage projects ranging from large IT system replacements to smaller, more human-focused projects

Business Process Consulting

We capture, document, and analyze processes from the perspective of people, policy, and technology to identify potential cost savings and operational efficiencies

Strategic Consulting

netlogx' people-focused, results-oriented expertise helps bring projects and visions to successful completion—we're your trusted partner

THE netlogx ADVANTAGE

Project Rescue: Several states turned to netlogx to rescue IT transformation projects that were failing when managed by large enterprise-level project management vendors

Industry Knowledge: Our Subject Matter Experts provide guidance to state governments on topics such as Child Support and Medicaid

Reduced Start-Up Time: We bring tools, techniques, and approaches that we've developed over the past 25+ years to every project

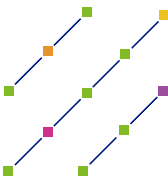

Focus on Client Success: We have a reputation for finishing projects on time and on budget while providing clients with the resources to be successful after our involvement ends

SPECIAL ITEM NUMBER (SIN)

Our SIN maps to the same **NAICS code, which is 541611:** Administrative Management and General Management Consulting Services.
